

5 Start using your new telephone system

- To make a **HOME** call:
Dial the telephone number, then press **HOME/FLASH** on the handset or **HOME** on the telephone base.
- To receive a **HOME** call:
Press **HOME/FLASH** on the handset or **HOME** on the telephone base.

If you have a Bluetooth headset connected, press **HEADSET** on the telephone base to make and receive **HOME** calls.

To make a **CELLULAR** call:

- Dial the telephone number, then press **CELLULAR** on the handset or telephone base.
- Press **CELLULAR** on the handset or telephone base.

To end a **HOME** or **CELLULAR** call on the handset:

- Press the **OFF/CANCEL** or return the handset in the telephone base or charger cradle.

To end a call on the telephone base:

- Press **HOME** for a **HOME** call.
- Press **CELLULAR** for a **CELLULAR** call.

Handset Telephone base

- See page 55 in the user's manual for more information on operating the telephone system.

6 Using the answering system

By default, the answering system is on and preset to answer after four rings. When there are new messages on the answering system, **PLAY/STOP** on the telephone base will flash, and the display will indicate the number of new messages. On a handset, the status indicator light will flash and the display will show **New Message**.

To play answering system messages:

Using a handset

- Press **MENU/SELECT** when the handset is in idle mode.

- Press the **UP** and **DOWN** Navkeys to select **Messages**, then press **MENU/SELECT** to enter the **Messages** menu.

- Press the **PLAY** softkey.

- Press the **STOP** softkey stop the playback.
- Press **RIGHT** Navkey to skip to the next message.

- Press **LEFT** Navkey to repeat the message currently playing. Press twice to listen to the previous message.
- Press the **DELETE** softkey to delete the message currently being played back.

Using the telephone base

- Press **PLAY/STOP**

- Press **PLAY/STOP** to stop the playback.
- Press **SKIP** to skip to the next message.
- Press **RPT** to repeat the message currently playing. Press twice to listen to the previous message.
- Press **DELETE** to delete the message currently being played back.

- See page 86 in the user's manual for more information on operating the answering system.
- To learn how to setup the answering system, see page 49 in the user's manual.

7 More about Bluetooth

You can make and receive calls using the **HOME** and **CELLULAR** lines. The **HOME** line is your conventional telephone land line. The **CELLULAR** line is the communications service provided through your Bluetooth enabled cellular phone. Before you use your Bluetooth device(s) with the telephone base, make sure that:

- Your cellular phone and/or headset devices are not connected to any other Bluetooth device(s) and the Bluetooth function is on.
- Your device is connected to the telephone base and on the **Active Devices** list (page 27 in the user's manual).

If you experience difficulty using your Bluetooth cellular phone:

- Make sure that your Bluetooth cell phone is working properly. See your Bluetooth device(s) user's manual for more information.
- Delete the **AT&T EP5632** device on your cellular phone, then delete your cellular phone on the **Pair devices** list (page 26 in the user's manual).

- Repeat the pairing process in **Connecting your Bluetooth cellular phone** in this Quick start guide.

Refer to the user's manual's **Bluetooth** and **Troubleshooting** sections. We hope you enjoy using your new AT&T product. Visit us online at www.telephones.att.com/Bluetooth for a list of compatible Bluetooth devices, document downloads, FAQs, and more.

1 Install the telephone base

Install the telephone base as shown below.

- Make sure that the electrical outlet is not controlled by a wall switch.
- Use only the power adapter supplied with this product.

- The telephone base is ready for desktop use. To wall mount the telephone base see page 10 in the user's manual.
- See pages 8 and 9 in the user's manual for more information on installing the telephone base.

2 Install the handset battery

Install the handset battery as shown below.

Step 1

Press the tab and slide the battery compartment cover downwards.

Step 2

Insert the battery as indicated with the top edge (contacts and tab) in first, then push in the lower portion of the battery.

Step 3

Press the tab and slide the battery compartment cover downwards.

Step 4

Charge the handset, by placing the handset face up in the telephone base or in the additional charger (EP5632-2 only). The **CHARGE** light will be on when charging.

- After installing the battery, you can make and receive short calls.
- For optimal performance, charge the handset battery for at least 16 hours before use.
- See page 14 in the user's manual for more information on installing the handset battery.

3 Connect your Bluetooth cellular phone

Before you begin, make sure that your Bluetooth enabled cellular phone is not connected to any other Bluetooth wireless device(s). See your cellular phone's user's manual to learn how to set your cellular phone to search for or add new Bluetooth devices.

To pair and connect your cellular phone:

1. Press **CELLULAR** on the telephone base.

2. Press the **YES** softkey

3. Set your cellular phone to search for or add new devices, then press the **NEXT** softkey.

4. Once your cellular phone finds the **AT&T EP5632**, select it, and enter **0000** on your cellular phone for the PIN.

5. When the pairing is complete, press the **YES** softkey on the telephone base.

- See page 23 in the user's manual for more information.

4 Connect your Bluetooth headset

Before you begin, make sure that your Bluetooth enabled headset is not connected to your cellular phone or any other Bluetooth device. See your headset's user's manual to learn how to pair and connect your headset to Bluetooth devices.

To pair and connect your headset:

1. Press **HEADSET** on the telephone base.

2. Press the **YES** softkey

3. Set your headset in discoverable mode, then press the **NEXT** softkey.

4. Once the telephone base finds your headset, select it and press the **PAIR** softkey.

5. Enter your headset's PIN on the telephone base, then press the **DONE** softkey. The default PIN for most headsets is 0000.

6. When the pairing is complete, press the **YES** softkey on the telephone base.

- See page 24 in the user's manual for more information.
